Personal statement

As a musician and multimedia design student at Business Academy South West, I am constantly looking to hone my craft and improve my creative thinking and design experience. I am looking for an internship where I can make use of my skills and challenge myself to get better.

Education

Started at BASV in 2019 and graduate in 2021.

Modules included:

- User Experience
- Project Management
- Creative Content
- Design and Development

Interests

I am an amateur musician, writer and sound designer. I love working with projects that challenge me to come to a creative solution to problems.

I work a lot with programs such as Photoshop, Illustrator, InDesign, Ableton as well as recording, mixing and mastering sound, audio and editing video in After Effects and Premier.

Work experience

Various freelance jobs including game level design, logo design, sound design for video and app as well as producer for various artists.
